

# School Quality and Climate Survey: Henderson Elementary

## Results

School Year: 2020-2021

# Project Overview

---

Positive school climate is an essential component of successful and effective schools. It is defined as shared beliefs, values, and attitudes that shape interactions between students, teachers, and administrators, while setting the parameters of acceptable behavior and norms for the school.

The Midland Independent School District (ISD) School Quality and Climate Surveys asked parents, campus-based staff, and students in grades 3-12 for feedback on school climate. Results will be used to inform decisions at the campus and district levels. This was the third administration of the survey.

K12 *Insight* partnered with district team members to develop the surveys, which addressed the following topics:

- Academic Support
- Student Support
- School Leadership
- Family Involvement
- Safety and Behavior

Additional questions were asked about the following topics:

- Online and on-campus learning
- Educational experience with Midland ISD
- Communication
- Likelihood to recommend their school/child's school
- Likelihood to recommend Midland ISD

# Details of the Study and Understanding the Results

---

The surveys were open from Feb. 2 to March 5.

Email invitations with unique survey links were sent to parents and campus-based staff. Staff members working at more than one campus could take the survey for each campus. Reminders were sent Feb. 9, 16, and 26 and March 2 and 5. Parents also could participate via a public link on the district's website. All surveys were translated into Spanish and the parent survey was also translated into Hakha Chin.

Students used their student IDs to access the survey in school.

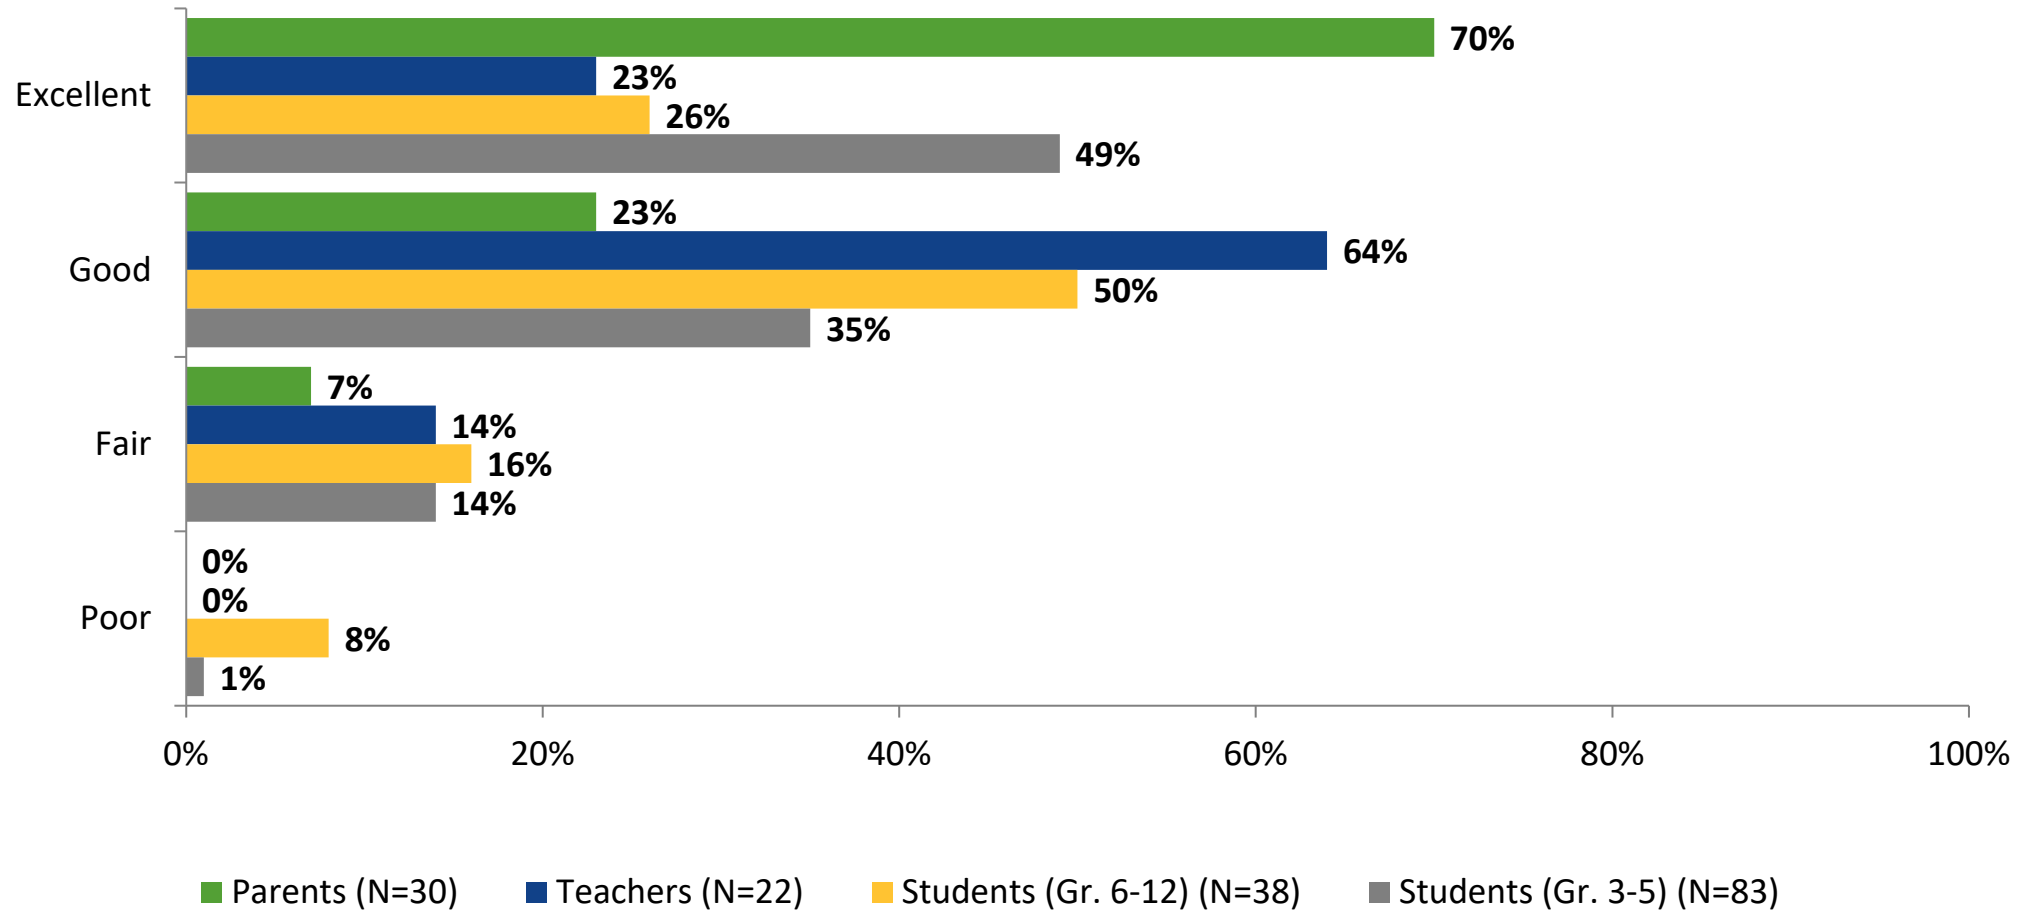

This report summarizes survey results and breaks them down by parents, campus-based staff, and students in grades 6-12. Students in grades 3-5 are not included in comparisons by participant group because they completed a simplified version of the survey. Survey results are compared with those from 2019-2020 and 2018-2019.

Results do not reflect random sampling; therefore, they should not be generalized to all Midland ISD parents, campus-based staff, and students in grades 3-12. Rather, results reflect only the perceptions and opinions of survey participants. School-level reports will be provided.

Findings for each item in the report exclude participants who did not answer. In charts and graphs, data labels less than 5 percent are not shown. Percentages may not total 100 due to rounding.

# Overall School Quality: Comparison by Participant Group

How would you rate the overall quality of your/your child's school?

# Dimension Scores: Comparison by Participant Group

■ Parents (N=30) ■ Campus-based Staff (N=22) ■ Students (Gr. 6-12) (N=38)

Answer options: Strongly Agree, Agree, Disagree, Strongly Disagree, Don't Know

Note: Percentages shown represent the average of Strongly Agree and Agree responses across all items within a dimension.
