

Student Z Pass Instructions

Tell your students how to use their ZPass cards. You can explain it how you want but, please encourage students to take advantage of the extra security provided by ZPass. You can say something like this...

Hello, I'm _____, your bus driver.

Please listen while I tell you about your Z Pass cards.

Bus riders at your school use ZPass cards to know who rides the bus.

It's very important that you do not lose your card because you will swipe it each time you get on and off the bus.

Just remember – **Ready, Swipe, Store!**

- **Ready** means have your card ready to swipe before the bus arrives at your stop and be ready to swipe it again as you get off the bus.
- **Swipe** reminds you to swipe your card correctly.
Hold it flat near the Z Pass reader until you hear a beep or see the color change.
If you do not hear a beep you will need to swipe it again.
I will be able to help you if you have any questions.
- **Store** means store your card.
Just remember to store it where it won't be easily lost, such as a special pocket in your backpack.
In no time at all you'll be using your card like a pro.
- Don't forget to use your card every time you get on or off the bus.
- If you can't use your card, tell someone in your school's office.
If you don't use your card for a week we may have to contact the school.
- Always remember – **Ready, Swipe, Store!**
OK, please be safe and happy riding!
