

**Midland ISD Online Academy
 Academic Courses with On-Campus Components**

The Midland ISD Online Academy (MOA) offers several courses that have on-campus requirements for attendance. These courses are offered with the requirement that students attend campus to complete learning activities. The number of times that students will be required to attend on-campus activity sessions will vary based on specific course requirements. Students will attend the following on-campus activity sessions during their **regularly scheduled class period or at scheduled time that allows for appropriate social distancing**. Students are required to provide their own transportation to and from the on-campus activity. Depending on the location of the instructor, students may be required to attend a learning activity at either the Advanced Technology Center (ATC), Cogdell, Midland College Main Campus, their home campus, or another school campus for adequate social distancing. Teachers will provide additional information during the first week of instruction.

The following courses will require on-campus instruction anytime a campus or student has to engage in virtual learning beginning August 19, 2020:

COURSE #	COURSE DESCRIPTION	COURSE #	COURSE DESCRIPTION
7152	Oil & Gas II	7869	EMT Health Science Lab
