

**MIDLAND INDEPENDENT SCHOOL DISTRICT  
HEALTH SERVICES DEPARTMENT**

## Parent Authorization for Diabetes Care at School

Student: \_\_\_\_\_ Birth date: \_\_\_\_\_

School: \_\_\_\_\_ ID#: \_\_\_\_\_

**Information for parents:** MISD assigns a nurse to every campus to provide healthcare for all students. Under HB 984, there is a requirement that every campus train other employees to serve as Unlicensed Diabetic Care Assistants in the absence of the assigned nurse or a substitute nurse to provide diabetes care and services to a diagnosed student at school. The trained UDCA can provide diabetes management care at school for students including glucometer checks, recognizing signs and symptoms of hyper/hypoglycemia and administering insulin. If you, as a parent or guardian, elect that a UDCA assist your student, authorization is required.

***Please check the appropriate space indicating your election:***

**YES** I authorize an UDCA to provide diabetes care and services for my student at school.

**NO** I DO NOT authorize an UDCA to provide diabetes care and services to my student at school.
